V Cautions

International students must be careful about the followings;

◎ Status Change (such as withdrawal from school)

If students wish to leave the University halfway through their period of stay, they should consult with their academic advisor in advance. Submit a notice of withdrawal from the school to the Student Affairs Office of your department. If you fail to follow this procedure, you may not be considered as “withdrawn” and will receive a reminder for unpaid tuition fees.

Students must notify the office when taking a leave of absence from school or returning to school as well.

Please contact the International Relations Office or the Student Affairs Office of your department. (Research students cannot take a temporary leave of absence from school).

- Address and telephone number changes, and purchasing a cellular phone

Students must notify the above to the International Relations Office and the Student Affairs Office of your department.

◎ Please always check MMIS and Universal Passport for updates.

◎ Keep in touch with your academic advisor and your guarantor (or landlord), and keep them updated on your activities.

◎ Private mail/delivery other than for the International Student House will not be kept in the International Relations Office. Please notify senders to mail your correspondence directly to your apartment.

◎ Telephones in the University are not available for your private use. Please use the pay phones on campus. Private incoming calls are not accepted either.

◎ Follow the rules of Mie University and try your best to achieve the goals of your study in Japan.

*The International Relations Office is open from 8:30 to 17:15 on weekdays (Monday ~ Friday).

VI Part-time Jobs

Students holding a student visa will be permitted to have a part-time job by applying for permission of activities other than the status of residence at the Immigration Bureau.

Number of hours should not exceed the hours indicated below and should not disrupt your study.

- 1) Regular Students: Up to 28 hours/week
- 2) Non-regular Students: Up to 28 hours/week

In both cases, students are permitted to work 8 hours/day during the long-term vacations (Summer, Winter, and Spring).

It is prohibited by law for international students to work in the sex or gambling industry. The following documents are required for application.

- 1) Application for permission to engage in an activity other than that permitted under the status of residence previously granted
- 2) A document that proves the activity
- 3) Passport (verification purposes only)
- 4) Residence Card or Appropriate Alien Registration Card (verification purposes only)

As long as the student is permitted to work, the permission is effective even if the place of work changes.

The public employment security office (It is called *Hellowork*) and the University Co-op will give their support for part-time employment.

Those who obtain work permit must notify the International Relations Office immediately.

VII Returning to Home Country

Procedures for leaving Japan for home country differ by status of the students. The information regarding procedures will be given by at the International Relations Office. When leaving, obtain a departure stamp on your passport from the immigration officer at the airport and return your Alien Registration Card. If you have Residence card, you will receive the punched card back when you return to home country.

Be sure to clear and close all accounts of individually owned cellular phone, rented items, accommodation fees, bank accounts, National Health Insurance etc.

The phone number is 059-231-9649.

※Shoplifting

No one can take possession of property illegally or commercial products without paying, it is called stealing or shoplifting.

According to Japanese law, shoplifting is considered a form of theft and punishable with a fine of less than 500,000 JPY or less than ten years of imprisonment. It is a very serious crime. Please refrain from committing any crimes.

2. Preparing to Deal with Earthquakes

Japan is a country with many earthquakes. We better be prepared in case of such natural disasters happening.

First of all, furniture should be fixed to the wall with fittings. Fittings can be purchased at local stores. In particular, heavy furniture such as bookshelves should be firmly fixed so that the books will not fall off.

Passport and other valuables should be kept in one place so that they can be taken out easily.

Check and verify the location for evacuation in your residential area.

Please remember the following in case of a big earthquake happened.

- 1) Turn off the stove and the main gas valve.
- 2) Open at least one window or a door to secure your exit.
- 3) Stay away from the window to avoid injury by broken glass.
- 4) Stay under a strong desk or close to a pillar of the doorway.
- 5) Put shoes on since there may be broken glass on the ground and go to the designated evacuation area.

In cases of an earthquake, TV and radio will report the necessary information. Obtain the accurate insight from them and try not to be confused by false information.

Mie University lies in the tsunami risk zone. In case of an earthquake, you are advised to seek out high ground, preferably the upmost floor in a building at least four stories tall.

3. Abandoned Bicycles

Do not take bicycles left near the station or on the street even if they seem still usable. All bicycles in Japan are registered, so you may be suspected of stealing bicycles and questioned by the police if you use the abandoned bicycles.

When receiving bicycles from your friend, have him/her write a transfer agreement and register the change of owner at the police station.

4. Garbage Disposal

Garbage disposal differs depending on the city/town of your residence. Check with the city/town office or your neighbors. Collection day, place, time, and type of garbage are set, so please follow the rules of your residence. If you do not follow the rules, it will result in troubling your neighbors because of the smell and garbage can be scattered by animals such as crows.

5. Moving In/Out

Be sure to check the following when moving.

- 1) Notify the realtor and the landlord a few months before moving. Pay all rent and expenses before you leave.
- 2) Stop electricity (TEPCO), gas (Gas Company), and water (Water Authority).
- 3) Submit the notice of the address change to the post office.
- 4) When moving out into the same municipality, notify the municipal city/town office of your current residence of your address change.
- 5) When moving out into a different municipality, notify the city hall of your residency that you are moving in/out. Change address on your National Health Insurance, or report it to the mobile phone company and your bank.
- 6) When you move to other place, do not forget to notify the change of your address to shops and governmental offices such as city hall, bank, and cellular phone company.
- 7) Notify your new address and telephone number to the International Relations Office and the Student Affairs Office in your department.

6. How to Open a Bank Account

It is possible to assign payment of rent, water, gas etc. to a bank account, so that the payments are automatically carried out each month. Furthermore, owning a bank account greatly simplifies receiving tax returns and salary for part-time jobs. When opening a bank account, the following is necessary:

1. Your Alien Registration card, Residence card or a National Insurance card. If you do not have one yet but are in a hurry to open a bank account, you can issue a certificate of residence, which can be used instead.
2. A Name seal; a stamp with your name

3. Cash. Any amount is fine.

[How to Register Your Names for Opening Bank Account]

- ✓ Even if your name is written in Chinese characters (for example, if you are a Chinese national), you will be asked to provide a transliteration of your name into katakana. You can ask your teacher for help with converting your name into Japanese pronunciation and script in advance.
- ✓ Issuing a Bank Card, four-digit number is required to have the card issued at the counter. You will receive the card by post later.
- ✓ In addition, you may be asked to stamp on for issuing the card. In case you do not have a name stamp, you can ask if you can sign instead. Usually it is accepted. If it is not accepted, you can buy your own seal or have it made at seal makers or hardware stores. Ask for one with your name in katakana. It will take around 15 minutes or so and there are many variations from reasonable ones to expensive. You can have one which is inexpensive around 500 to 1,000 yen.

To Foreigners Registered as Residents in Japan: Information on the Individual Number(My Number)

Starting in January 2016, Social Security and Tax Number (also called Individual Number or “My Number”) is used in the fields of social security, tax and disaster response.

1. What is the Individual Number?

Individual Number (nicknamed “My Number”) is 12-digit numbers assigned to individuals living in Japan under the Social Security and Tax Number System. It is used in the fields of social security, tax and disaster response. The System serves as social infrastructure to increase administrative transparency, bring greater convenience to the public, and create a fair and just society.

Foreigners registered as residents in Japan (medium-term residents, special permanent residents, etc.) will also receive their Individual Number.

2. Notification of your Individual Number

- ◆ If you are registered as a resident in Japan, your Individual Number is printed on the notification card that you receive from the municipal office of your registered address. (The notification card will never expire. Do not throw away your notification card. You must keep it securely.)
- ◆ Foreigners who enter Japan with a medium- to long-term resident status will receive their Individual Number at the time of resident registration.

3. When to use the Individual Number

- ◆ You will present your Individual Number to the tax office for tax procedures, such as when filing your tax return for 2016 and beyond.

Note: In the above procedures, the organization handling your Individual Number will prevent identity fraud by confirming (1) the validity of the number and (2) the identity of the holder.

Since the notification card can only prove the number, you will need to present your personal ID (e.g., residence card, special permanent resident certificate).

4. What is an Individual Number Card (My Number Card)?

- ◆ This card proves both your Individual Number and identity in any procedures related to the Individual Number. It also serves as your official ID card.

- ◆ You can apply for an Individual Number Card. Several application options are available, such as returning by mail an application form (received with your notification card) with a photo of your face attached, or applying online via a PC or smartphone. The first issuance of the Card is free of charge.
- ◆ Once you have applied for an Individual Number Card, you will receive a postcard stating that your Card is ready for issuance. You can pick up your Card at the municipal office by bringing (1) this postcard, (2) your notification card, and (3) your personal ID (residence card, etc.). You need to set a personal identification number at the time of issuance.
- ◆ Your Individual Number Card is valid until the tenth birthday after the issuance if you are 20 years or older, or until the fifth birthday if you are under 20 years old. Note that the expiration date may vary depending on your residency period or other conditions.
- ◆ The Card is embedded with an IC chip, which can store an electronic certificate used for online tax returns and other procedures.
- ◆ In some municipalities, the Card may be used to receive public services (e.g., public library services, issuance of seal registration certificates) or to obtain a copy of your residence certificate at a convenience store.
- ◆ The IC chip will contain your name, address, Individual Number, and other information printed on the face of the Card. No highly sensitive personal information, such as your income, will be recorded.
- ◆ Even after receiving the Individual Number Card, you will still need to keep your residence card, special permanent resident certificate, etc.

5. Precautions in handling the Individual Number

- ◆ When the address or other information stated in the notification card or the Individual Number Card needs to be updated, please contact the municipal office.
- ◆ No one is allowed to use or collect Individual Numbers unless permitted by law. When someone asks you your Individual Number, be sure to check who will use it and for what purpose.
