

## 工学部による交換留学生の受入れ

三重大学工学部、すなわち工学部の教員による交換留学生の受入れは、工学に興味がありその習得を希望する学生を対象とし、留学期間中に工学部の研究室においていくらかのラボ活動に参画していただきます。または、将来、三重大学大学院工学研究科への進学を希望する学生も対象とします。

本国の大学所属が工学部であっても、漫画等の日本文化習得のみの目的で、三重大学に留学したい交換留学生は、国際交流機構を選択して下さい。

## Acceptance of Exchange Students by the Faculty of Engineering

The Faculty of Engineering at Mie University, specifically its faculty members, accepts exchange students who have an interest in engineering and wish to deepen their knowledge in the field. During their study abroad period, students are expected to participate, to some extent, in laboratory activities within the Faculty of Engineering. Additionally, this program is open to students who aspire to pursue further studies at the Graduate School of Engineering at Mie University in the future.

Even if a student's home university affiliation is with an engineering faculty, those who wish to study at Mie University solely for the purpose of learning about Japanese culture, such as manga, should apply through the Organization for International Education and Research (OIER) instead.
