

## Admission Policy for the Students from Partner Universities

1. The special auditing students (undergraduate) from partner universities to Mie University shall be at least third grade.
  
2. Second grade students from partner universities may be accepted under the following conditions.
  - a. List of the classes of the students' major already taken and the description of the students' knowledge on the major field are required on the application form in order to verify the students' level of knowledge on major and their motivation to study in Mie University.
  
  - b. Ahead of the permission of acceptance by the International Student Committee and the procedure to accept by the administrative office, a documentary examination and an interview by Skype are to be made by the Graduate School of Engineering.

Case 1:

A contact person of the Partner University or International Affairs Section is to conduct a documentary examination and an interview by Skype.

Case 2:

In the case that the applying student wishes to study at a certain laboratory, a person in charge of the laboratory is to join the documentary examination and the interview by Skype.

Those who pass the above selection are to be accepted by Mie University. Once the decision of the acceptance is made, a contact person of the partner university or International Affairs Section shall inform the relevant partner university (a contact person and the Dean) and the International Student Office in Mie University about the acceptance of the applying student.
